

NAYEEMULLAH A

Full Stack Developer

📞 7845690658 @ nayeemnoor44@gmail.com 🔗 <https://www.linkedin.com/in/nayeem-khan-088270188>

SUMMARY

Full Stack Developer with 5 years of experience, including 3+ years specializing in designing and deploying scalable cloud applications on AWS. Proficient in Node.js, React.js, and JavaScript, with deep expertise in serverless architectures using AWS Lambda, DynamoDB, S3, SNS, and SQS. Proven track record of building secure, high-performance REST APIs and microservices optimized for scalability, cost-efficiency, and business growth.

EXPERIENCE

System Engineer

Tata Consultancy Services

📅 04/2025 📍 Chennai

A leading multinational information technology services and consulting company

- Designed, developed, and maintained secure banking backend APIs using Node.js and JavaScript
- Built RESTful API endpoints to handle core banking operations, including data validation, transaction processing, and service integrations.
- Implemented authentication and authorization using JWT-based security to ensure secure API access.
- Integrated AWS DynamoDB with Node.js services to perform efficient data storage and retrieval.
- Utilized Node.js file system (fs) module for configuration handling, logging, and internal file operations.
- Implemented security policies using AWS IAM roles, policies, and KMS keys for encrypted data access.
- Developed asynchronous and event-driven workflows using AWS SNS, SQS, and Lambda.
- Monitored application logs, metrics, and system performance using AWS CloudWatch for proactive issue resolution.

Full Stack Developer

Kepler Techno Pvt Ltd

📅 03/2021 - 02/2025 📍 Chennai

Technology firm specializing in health solutions and applications

- Developed dynamic and responsive user interfaces using React.js and JavaScript, enhancing the user experience for the 360 Health Checkup feature
- Enabled seamless booking of consultations and blood tests with integrated lab interactions
- Leveraged JavaScript to implement AI-powered functionalities that generate detailed blood test reports and provide health insights
- Built RESTful APIs with Node.js and Express.js, integrating seamlessly with SQL for efficient data storage and retrieval
- Implemented authentication and authorization mechanisms using JWT and OAuth2 for secure access control

Digital Marketing

Iopex Technology

📅 03/2020 - 02/2021 📍 Chennai

Company focused on digital marketing and project management

- Provided backend support for digital marketing initiatives
- Handled direct tickets and provided client support for various requirements
- Generated and sent detailed email reports to clients
- Managed job application portals for applying jobs on behalf of clients

EDUCATION

Bachelor's Degree Computer Application

C Abdul Hakeem College, Vellore

📅 06/2016 - 09/2019 📍 Vellore

KEY ACHIEVEMENTS

Cloud Solutions and API Integration

- Architected and delivered scalable Node.js APIs for mission-critical banking workflows.
- Developed serverless backend services using AWS Lambda to improve system resilience.
- Improved application performance and reduced cloud costs through infrastructure tuning.

TECHNICAL SKILLS

Language: JavaScript, TypeScript, Java, SQL

Backend: Node.js, Express.js, REST APIs, JWT, OAuth2

Frontend: React.js, HTML, CSS

Cloud & DevOps: AWS (Lambda, S3, SNS, SQS, DynamoDB, IAM, CloudWatch), Azure DevOps

Databases: SQL, DynamoDB

Tools: GitHub, Postman, SOAP UI, Figma, WordPress

PROJECTS

MULTI ACCOUNT MIGRATION - BANK OF MONTREAL

📅 04/2025 📍 Chennai

Project involved the migration of multiple accounts for Bank of Montreal, Canada to AWS infrastructure

- MULTI ACCOUNT MIGRATION - Developed backend API services using Node.js for banking operations
- Implemented multiple AWS services for secure data handling and communication
